

### **Charm City Broomball Weekly Duties:**

#### **Time Clock/Score Keeping:**

Each week two players will be assigned to run the time clock, and keep track of the stat sheets. They will manage the clock, collect balls that are hit out of play, and keep track of stats.

The stat sheet: You will cross through the names of players who are absent. You will keep track of shots on goal, penalties, goals, and assists. You will write in the name of the player (s) who score, assist, and earn a penalty. You will also keep track of shots on goal. The refs will provide the following information to the score keepers: Who scored, who assisted, who earned the penalty and what the penalty was. You will use your judgement as to a shot on goal. Note: A shot on goal is considered when the goalie is forced to make a save. Stat sheets will be provided. Also, when balls go out of play the referees will look to the score keeper to immediately throw a new one into play. Make sure you have a spare game ball ready to go.

#### **Equipment on/off:**

Each week two players will be responsible for placing the goals, moorings, and balls on and off the ice. The moorings are located in a small box inside the lower office. The balls will be placed by the time clock.
